- Bike Safety - Div. 6 to 3 - in-classroom instruction and outside instruction with bikes and helmets available for kids without equipment, bikes from home will be stored in the gym for the day

- The technology equipment in the Learning Commons will stay there; our school is too small to bring the Learning Commons inside the main school
- School Plan - Zones of Regulation learned in class this year is not working with Conflict Resolution/problem solving skills in the playground/outside of the classroom; things that seem small are escalating to aggression
- What do we want to see? What skills do we need at teacher/EA level? Principal level? Parent level? Children are not invested in Clayton
- What can we do to help us build our Clayton family? Intra-murals for intermediates? Buddies closer in age? School projects? Common projects for the whole school? Share in their learning. Learn socialization skills
- Second Step Program - teachers will be exploring this program on Pro-D day, tackling issues such as bullying, conflict resolution, assertiveness, social skills - bringing this forward next year
