

POLICY #3440
INTERNAL COMMUNICATIONS PROCEDURES

The Surrey Board of Education believes there is a need to establish and maintain effective communications channels within the school district to advise, direct and share information with district staff.

Various forms of communications methods will be used and each one will be adopted to meet the audience needs, feedback requirements, sensitivity of the messages, subject matter, and respect for privacy.

The use and form of the various approved communication methods will be described in regulations.

Approved: 2000-10-12
