

Parents & Guardians: Get *SchoolLink*-ed!

A new iPad / iPhone app is now available

Surrey Schools works to support its parents better and has now developed a new iPhone / iPad “app” for parents as a tool to help them keep connected and up-to-date with their child’s school and the school district. (At this stage, the app is only available for iPhones and iPads).

The app is called “SchoolLink” and it’s free! The app enables your iPhone or iPad to access essential school information, as well as receive—virtually instantly—news/ announcements, feature stories and timely alerts (special announcements), that are posted to a school’s website.

To obtain the app, use your iPhone or iPad to visit the App Store. Search “SchoolLink,” then install the free app. Once installed, just follow the prompts to select the schools you wish to follow.
