23	10am-12pm	25	10am-12pm	27		
30	\$1 per child		\$1 per child			

 **Clover Valley Family Resource Program**
The Family Resource Programs strives to bring parents and children together to strengthen parenting, promote social networking, reduce isolation and promote community cohesion. They are grounded in the belief that consistent positive parenting practices and secure, healthy parent-child relationships are fundamental factors in all aspects of healthy child development. There is no pre-registration and is offered on a drop in basis. We serve families with children from birth to 6 years of age. There is a \$1.00 fee per child.

Parent Education and Peer Support Program is similar to the Clover Valley FRP but also has an education focus for parents. There is an education topic each week and provides an opportunity to share information about parenting-related topics. This program is offered on a drop in basis and no pre-registration is required. There is a \$1.00 fee per child.

For more information about either programs, contact Crina at [\(604\)764-8635](tel:6047648635) or crina.popa@options.bc.ca.

 **Babes & Tots: Bounces, Songs & Play!**
Join us for FUN with lap bounces, favourite songs & rhymes, stories, and play! These sessions help babies and toddlers develop large and fine motor skills, and enrich their imaginations, as well as promote early speech and language development, and create strong foundations for early literacy. These activities also encourage bonding, and are a fun way for caregivers to learn new songs and rhymes to share at home. We will include social time and play time with LEGO DUPLO®. For more information, contact Carmen at cmerrells@surrey.ca or [\(604\) 598-7447](tel:6045987447).

***NOTE:** October 14 will include a visit by a **Fraser Health Speech Therapist** for drop-in consultations. Parents who are concerned about their preschool-age child’s speech sound or language skills development are invited to talk with the therapist for 5-10 minutes and receive a brief screening of their child’s communication skills and suggestions for their child’s speech and language development.

Would you like to:

- ♦ Form a strong bond of love and trust with your baby?
- ♦ Help your baby sleep better and for longer?
- ♦ Ease your baby’s wind (gas) and colic pain?
- ♦ Relieve your baby’s constipation?
- ♦ Stimulate your baby’s neurological development?
- ♦ Improve your baby’s health and general well-being?
- ♦ Learn to understand your baby’s body language and cues?
- ♦ Attend a relaxing and friendly baby massage class?
- ♦ Meet other parents with babies?

Infant Massage is a traditional parenting practice in India and many other parts of the world, where generations of mothers have offered this nurturing touch to their babies. It provides a loving connection between parent and baby starting early in life, supporting the strengthening of this attachment as baby grows. Come along and learn about the advantages, and the fun, of massaging your baby. Make some new friends in the small group classes. You and your child will love your special time together.

This course is taught by Michele Tardif, a trained infant massage instructor.

Call the office at [604-590-7302](tel:6045907302) to register

Please Note: Childminding is not available
