

New! Energy Leaders distance learning materials

In addition to expanding and adapting our existing Energy Leaders curriculum for Kindergarten through Grade 10, we're finding new ways to assist teachers like you, with in-class and distance learning, during the Covid-19 pandemic.

We're offering free webinars to help you get acquainted with our free lesson plans—written by and for BC teachers—based on the current BC curriculum. We've also recently translated our free, curriculum-connected distance-learning lessons and supporting materials for Kindergarten to Grade 10 into French.

Signing up for a webinar is as easy as emailing your contact information to EnergyLeaders@fortisbc.com. You can also access all of our [free lesson plans and materials](#) online. No login required!
