Parking, Drop off and Pick up – a few more things:

I know many of you may have seen the police constable out there today. We will continue to work with city and the RCMP to solve the issues on 184th – both the speeding and the left-hand turn into the parking lot when heading northbound.

1. A very important ask – **please treat our staff with respect and courtesy while they are on supervision.** If they ask you to move it is for good reason – safety for all and the movement of traffic. There have been incidents where our staff have been sworn or yelled at by those picking up students and this completely unacceptable. The supervisors are there to keep your children safe.

2. Please do not park on the side of the road directly across from the school (**East side of 184th**). It is not only a no parking zone it is actually a **NO STOPPING** zone. This is the area that allows people to go around those turning left into the parking lot. If we see you there, we will be asking you to move, please respect the city parking signage.
3. **If you can – the BEST option so that we do not back up 184th is to only turn RIGHT into our parking lot while going southbound on 184th.** Please make every attempt to go around the block and be heading SOUTH on 184th to turn right into our parking lot and then follow the parking and pull thru rules.
4. Parent lot and thru lane:

Thank-you to all those parents who properly use the thru lane. **The middle lane is not for stopping and getting out of your car. We ask that if you do not see your child ready to come to your car, that you go through, do a loop and try again. Stopping and getting out of your car to get your child from the playground backs up the whole system down 184th.**
