

DON'T LEAVE  
SUCCESS TO  
CHANCE

## Say Hello to True Understanding

It's not just about better thinking and learning skills for this year; kids need better thinking and learning skills for life. That's what Oxford Learning does. While we are building strong academic skills, we also help children develop new ways of thinking, concentrating, listening, and remembering... lifelong skills they can rely on.

Our programs go **way beyond** tutoring. Tutoring addresses only one aspect of learning: better grades. But, better grades are only a temporary solution. For real results that last for every grade, students need help in all aspects of learning: academic skills, learning skills, and learning awareness.

UNTAPPED. UNTIL NOW.

# OXFORD LEARNING IS... BETTER GRADES

## You Don't Need a Tutor

Tutoring relies heavily on memorization. At Oxford Learning, we take a decidedly different approach—one that helps students build the cognitive, metacognitive, and learning skills they need to absorb, process, and understand.

We don't ask children to review and memorize the same old stuff; we help them build the skills they need to really learn and understand.

With Oxford Learning's programs, you won't just be putting an end to today's school struggles; instead, you'll be putting an end to the time and expense of hiring a tutor year after year. You'll be giving your child the skills he or she needs to continue to succeed throughout life.
