

District

The Surrey school district was formed in 1906. It has the largest student enrolment in British Columbia. Surrey Schools is governed by an elected board of seven trustees representing the cities of Surrey and White Rock.

Students

Many cultures are represented within the student population. There are more than 3,200 students of Indigenous ancestry (First Nations, Métis and Inuit). More than half of students attending school in the district are from a household in which a language other than English is spoken. Of the more than 190 languages other than English represented in Surrey schools, the highest percentages are Punjabi, Mandarin, Tagalog (Filipino), Hindi and Arabic.

Parents

Parent involvement is welcomed at our schools. The Parent Advisory Councils (PACs) are valued as active partners in education. PACs are active at both the elementary and secondary levels and have representation on the District Parent Advisory Council and many district committees.

Schools

Surrey Schools has 103 elementary schools, 21 secondary schools, five student learning centres, three adult education centres, a distributed (online) learning program and a variety of satellite and inter-agency programs serving a wide range of specific student needs.

School populations in September 2021 ranged from:

- 82 to 745 students in elementary schools; and
- 1,143 to 1,739 students in secondary schools.

Early Learning

Ready, Set, Learn events held throughout the district provide three and four-year-old children and their families with an opportunity to participate in a series of play-based learning activities within the school setting. Parents/caregivers learn more about community supports and receive helpful tips to support their child's learning and development.

StrongStart is a free drop-in program where parents/caregivers and their children, from infants to five-year-olds, can participate together in a range of early learning experiences with an opportunity to play, learn and grow together. Parents and caregivers discover new ways to support their children's learning at home and may make valuable connections with others in the community who are also attending the centre. Locations and other details are available at www.surreyschools.ca under "[Early Learning](#)".

Our Vision:

We prepare our learners to think creatively and critically, communicate skilfully, and demonstrate care for self and others.

Guiding Principles:

The Board of Education is guided by a focus on:

- Supporting the design of engaging learning environments for all students.
- Operational efficiencies that prioritize resources to directly support learning.
- Relationships with community partners to broaden opportunities for students.
- Advocacy for necessary facilities and resources.
- Supporting schools and workplaces that are safe and welcoming.

Learning by Design:

The Board works in partnership with staff, students, parents and the community to support the district's vision.

The transformation of public education finds expression in the district's refreshed vision called Learning by Design which incorporates three key themes:

Learning; Structures; Tools for a Digital Age.
